

Wingrave Gold Standard Cat Clinic

Wingrave Veterinary Surgery in Sutton is one of only a few Gold accredited 'Cat Friendly' surgeries in Surrey. The International Society of Feline Medicine [ISFM] awarded Wingrave its highest Gold level status following the practice's investment in creating a unique surgery environment. Wingrave has designed and developed separate cat and dog waiting rooms, consulting rooms and wards, ensuring a relaxing experience for all clients and their pets.

Wingrave is committed to ensuring all its clients and pets requirements are met when visiting its surgeries. It is this dedication and specialist understanding that led Wingrave to develop its specialist feline care packages and health care facilities.

We aim to make sure all our clients and their pets feel as comfortable as possible when they visit us. We are delighted to hold the Gold Cat-Friendly Clinic status which recognises the hard work the team invested and sets us apart from other surgeries in Surrey. The ability to offer our unique separate cat and dog facilities, combined with the ISFM accreditation, provides peace of mind for our clients knowing their cat is in expert hands and a stress-free environment. Anything we can do to relieve the anxiety of a visit to the vet is important, so we can concentrate on the reason for the visit and keeping pets healthy and happy.

Gold Level Accreditation

We are delighted and proud to tell clients we are accredited by The International Society of Feline Medicine [ISFM] as a "Gold Standard Cat Friendly Clinic".

The Cat-Friendly Clinic Accreditation Scheme requires surgeries to demonstrate their dedication to delivering an exceptional standard of facilities and equipment especially designed for cats. Surgery staff must also demonstrate the specialist knowledge and expertise to handle and care for cats.

The ISFM understand cats have unique needs, which often makes a visit to the vet stressful for both the cat and their owner. The Cat Friendly Clinic programme is therefore designed to help address these issues by creating more cat friendly veterinary clinics.

At Wingrave, we fully appreciate the individual needs of pets and their owners. That is why we have been actively involved in the Cat Friendly Clinic programme by developing facilities just for cats.

Wingrave also holds the RCVS Practice Accreditation for its services and standards provided to all clients and all pets. The RCVS aims to enhance society through improved animal health and welfare. They do this by setting, upholding and advancing the educational, ethical and clinical standards of veterinary surgeons and veterinary nurses.

Our Cat Facilities

Our Sutton surgery allows for separate cat and dog waiting rooms, consultation rooms and wards. Our dedicated feline hospitalisation and isolation wards are located in quiet parts of the building away from the hustle and bustle of daily practice life.

We have excellent, modern diagnostic facilities and equipment enabling us to thoroughly investigate and treat feline diseases. Our vets and nurses undergo regular Continual Professional Development and training to keep up to date with developments in feline medicine and surgery.

Our staff are knowledgeable and trained in feline health and behaviour and we promise to handle your cat in a calm, gentle and empathetic manner.

We know the idea of visiting the vet can be very stressful for a cat. We provide advice on catching your cat at home to bring to the surgery or reintroducing a cat back home after a period of hospitalisation.

Our surgery layout allows us to make sure your cat is as comfortable as possible and we have experienced first-hand the benefits such as; calmer cats during consultations, more reliable clinical information such as blood pressure and glucose measurements and quicker recovery times from illness and or surgery.
